Duties and Responsibilities:

- Pick-up and deliver aggregate and precast products to industrial, commercial and residential construction job sites around the lower-mainland.
- Maintain a safe and clean work environment.
- Maintain a good driving record.
- Deliver materials and products on time.
- Perform all work assigned by management.
- Provide excellent customer service with a high level of professionalism.
- Operate ready mix trucks and a hydro vac truck in the yard when necessary.
- Comply with company procedures, rules and regulations.

Experience and Skills:

- A **valid Class 1 driver's licence** with air brake endorsement is a **MUST**.
- End Dump & Super B experience required.
- A minimum of 3 years of driving experience with commercial vehicles.

- A clean driving record. Must provide an N abstract (Commercial driving record).
- High level of alertness and concentration.
- Excellent verbal communication skills and customer service skills.
- A positive attitude.
- A strong work ethic.

Required experience: Class 1 with End Dump & Super B – 3 years

Required education: High School equivalent

Job Type: Full Time – 8-10hr workdays with the ability to be flexible

Please apply via email with your resume to careers@lockblock.com indicating **Class 1 Truck Driver** in the subject line. We thank all candidates who apply; only those selected for an interview will be contacted.

About Lock-Block Ltd.

We are the original manufacturer of the Lock-Block™ modular retaining wall unit and we have been making them since 1984. We began our operation with one thing in mind: the environment. We started out making retaining wall units from left-over concrete to keep it from the landfill and that vision has evolved and grown in the 33 year span of the company. We have developed a method of turning rubble concrete into reusable aggregates for road bases and producing fresh concrete. This process provides for LEED credits and keeps waste material from our landfills. Now, we have the ability to make Lock-Block™ units with 100% recycled aggregates at any specified compressive strength. We are continually looking for better ways to help our environment and minimize our impact on the ecosystem while providing a top-quality product that is noticed by the construction industry and engineering community around the world.
