Lock-Block Ltd. is looking for progressive and productive individuals interested in building a career with a rapidly growing precast concrete and aggregate producing company in Richmond, BC.

About Lock-Block

We are the original manufacturer of the Lock-Block™ modular retaining wall unit and we have been making them since 1984. We began our operation with one thing in mind: the environment. We started out making retaining wall units from left-over concrete to keep it from the landfill and that vision has evolved and grown in the 33 year span of the company. We have developed a method of turning rubble concrete into reusable aggregates for road bases and producing fresh concrete. This process provides for LEED credits and keeps waste material from our landfills. Now, we have the ability to make Lock-Block™ units with 100% recycled aggregates at any specified compressive strength. We are continually looking for better ways to help our environment and minimize our impact on the ecosystem while providing a top-quality product that is noticed by the construction industry and engineering community around the world. Job Summary

We are looking for an experienced **Crushing Equipment Operator** with a minimum of one year of related work experience. The Crushing Equipment Operator will work in a team to crush recycled concrete that will be used to make new concrete products or aggregate material for resale.

Duties and Responsibilities:

- Operating crushing equipment in accordance with standard operating procedures (SOPs).
- Completing pre-inspection on crushing equipment before start-up.
- Making recommendations to increase production.
- Maintaining the operational integrity of crushing and conveying equipment by conducting regular inspections.
- Completing and maintaining logs and reports, ensuring accuracy in reporting of data
- Assisting with maintenance, performing miscellaneous labour activities and operating other types of equipment when required.

Minimum Qualifications, Skills and Experience

- High school diploma or equivalent
- One year of experience with fixed and/or mobile crushing equipment
- Heavy Equipment Certification is an Asset
- Heavy Equipment experience is required.
- Must be able to lift 10 lbs with each hand and up to 50 lbs with both hands
- Reliable with an excellent attendance record.
- Self-motivated and able to work with minimal supervision
- A high commitment to personal safety and the safety of others.
- **MUST** be comfortable working in an outdoor environment in all weather conditions.
- Must possess a valid driver's license

Job Type: Full Time (Hourly) - 40 hours per week with the ability to be flexible

Please apply with your cover letter and resume indicating **Crushing Operator** in the subject line. We thank all candidates who apply; only those selected for an interview will be contacted.
