WE ARE HIRING FOR A HEAVY EQUIPMENT OPERATOR!

We are looking for an experienced **HEAVY EQUIPMENT OPERATOR** with a minimum of two years of related work experience in the Construction industry. Experience working in a crushing operation is an asset.

WHY WORK FOR LOCK-BLOCK?

- Competitive Wages
- Employee Benefits (Medical, Dental, Life Insurance, Long Term Disability, Employee Assistance Program, RRSP matching etc.)
- In House Training Program
- Support For Additional Training
- We Aim To Promote From Within
- Paid overtime
- Eligibility for annual bonuses
- Company Barbecues and Year End Holiday Party

Position Summary:

The Equipment Operator will work in our Aggregate Crushing department and is responsible for operating loaders to safely and efficiently load loose product onto a rolling conveyor, assist and coordinate the receiving of materials from incoming trucks, as well as operate the excavator to breakdown rubble concrete and move material around the yard. The Operator will also learn to operate the crushing plant and wash plant.

Duties & Responsibilities:

- Operate loaders according to standard operating procedures (SOPs) to reduce mechanical breakdowns and longevity of the loaders.
- Operate the following types of loaders- Komatsu 500, Liebherr 586, Cat 980 C
- Operate a Hitachi Ex 350 excavator with a muncher attachment to crush concrete; Hitachi 750, John Deere 670
- Operate the primary crusher and wash plant.
- Complete and submit the daily equipment inspection form and immediately report any defects that may jeopardize the safe operation of equipment.

- Loading product from various storage areas as needed, in a safe and efficient manner.
- Grading and sorting of bulk loads of loose materials.
- Ensure truck loads meet weight specifications – 500 Komatsu Loader has a scale attachment.
- Assist with equipment maintenance and clean-up when needed.
- Other tasks as assigned by management.

Minimum Qualifications, Skills and Experience

- High school diploma or equivalent
- Minimum of two years of experience operating front end loaders. Experience operating Komatsu – 500, Liebherr – 586 and Cat – 980 would be an asset.
- Experience operating excavators.
- Heavy Equipment Certification is an asset.
- Experience working in a crushing plant is an asset.
- Reliable with an excellent attendance record.
- High attention to detail.
- Able to effectively communicate and safely follow directions.
- A high commitment to personal safety and the safety of others.
- **MUST** be comfortable working in an outdoor environment in all weather conditions.
- Must be able to lift 10 lbs with each hand and up to 50 lbs with both hands.

Job Type: Permanent Full Time (Hourly) - 40 hours per week with the ability to be flexible. Mon-Fri or Tues-Sat schedule.

Please apply with your cover letter and resume indicating **Equipment Operator** in the subject line.

We thank all candidates who apply; only those selected for an interview will be contacted.

About Lock-Block Ltd.

We are the original manufacturer of the Lock-Block™ modular retaining wall unit and we have been making them since 1984. We began our operation with one thing in mind: the environment. We started out making retaining wall units from left-over concrete to keep it from the landfill and that vision has evolved and grown in the 33 year span of the company. We have developed a method of turning rubble concrete into reusable aggregates for road bases and producing fresh concrete. This process provides for LEED credits and keeps waste material from our landfills. Now, we have the ability to make Lock-Block™ units with 100% recycled aggregates at any specified compressive strength. We are continually looking for better ways to help our environment and minimize our impact on the ecosystem while providing a top-quality product that is noticed by the construction industry and engineering community around the world.
